### What is a Thai Shareholder Service

A Thai shareholder service is a Thai National nominated by you to be part of your Thai Limited Company. The most common reason to use a Thai shareholder service is to comply with gov't requirements.

### Why is it better to 'hire' a Thai Shareholder Service than using a friend or wife as your Thai Shareholder?

One of the most common disputes we see is when the nominated person refuses to hand over your shares or interfere with your business because there is no legal protection in place initially and as we know, Thai Laws require the majority of the shares in a Thai Limited Company to be held by a Thai person and this can cause a major issue when dispute happens between you and the nominated person especially if they are a friend, family members, wife, or employees.
